

COSMETIC CONSULTATION for telehealth

When presenting your patient to the telehealth practitioner certain information is required to be told to the practitioner...**ACACIA**

So you have determined patient is acceptable for treatment, you have discussed complications and alternative.

You also have a signed consent for treatment, costs and foto

You have provided information... record of what was done and used and especially you have provided after care instructions with contact numbers.

By doing a telehealth covering these subjects we are complying with AHPRA and more importantly caring for our patients... please cover all of "ACACIA"

1. ACACIA

A= acceptable both medially and cosmetically for treatment.

C= complications... and cost maybe involved to correct,

A= alternatives... medical procedure so must give alternatives.

C= consent... for treatment, about costs, for foto, and hand to patient

I= information about expectations,

who to contact (your own contact and a back up- anti-aging 03 98300744)

What was the treatment... suppose to give out something already

What was done and with what so if attends another know what done

A= after care ... give them instructions with contact number.
